SCI-CODE # 22

Interdisciplinary Science Department Competition

presents

Herbarium Making Workshop

10th of February, 2022 marked an important day for the Science Departments of K. C. College, HSNC University as Scicode #22 - It's All About Innovation, the Science Festival of K. C. College was held on this day.

Sci-Code is a legacy Science Festival hosted by the Faculty of Science and Technology, K. C. College under the aegis of DBT Star Status. It is held on an interdisciplinary level for all students from the Science Departments. As the name suggests, the festival aims to help the students explore their innovative ideas and help them bloom.

Under the platform of Scicode #22, the Nature Club of K. C. College organized a Herbarium Making Workshop. The process of preserving plant collection in the form of pressed and dried plant specimens mounted on a sheet of paper.

During the workshop, the students were given a demonstration on how to make a herbarium and were familiarized with its importance, and were taught the preservation techniques. A quiz was also organized wherein the students had to identify the plant specimen and write its scientific name. Lastly, students were provided with plants specimens and sheets to make their own herbariums.

Participants showed great enthusiasm and interest to participate in this hands-on herbarium making workshop and were left with a sense of appreciation of this technique. They also expressed their desire to participate in more such hands-on activities in the future.
