ABOUT MERCK

Merck is a well renowned science and technology firm that sees science as a force for good. Merck empowers the scientific community by providing a wide range of tools, services, and digital platforms that make research easier and more precise. From protein detection and sample preparation to chemicals and reagents, it manufactures the requirements of scientific research experiments. As a sustainable enterprise, Merck aims at using science and technology to help solve global problems.

We invite you to join us on a Virtual Visit to a Laboratory of this prestigious institution
