Recommendations of the Board of Studies:

## Section A

### Outline of Choice Based Credit System as outlined by University Grants Commission:

#### R. 10001: The Definitions of The Key Terms used in the Choice Based Credit System introduced from The Academic Year 2020-2021 are as under:

1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.

2. **Elective Course:** A course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

2.1 **Discipline Specific Elective (DSE) Course:** Elective courses offered by the main discipline/subject of study is referred to as Discipline Specific Elective.

The University/Institute may also offer discipline related Elective courses of **interdisciplinary** in nature (to be offered by main discipline/subject of study).

2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on her/his own with an advisory support by a teacher/faculty member is called dissertation/project. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

2.3 **Generic Elective (GE) Course:** An elective course chosen from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.

P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.

3. **Ability Enhancement Courses (AEC):** The Ability Enhancement Courses may be of two kinds: Ability Enhancement Compulsory Courses (AECC) and Skill Enhancement Courses (SEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement; SEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.

## **Choice Base Credit System**

CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill-oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and provides more flexibility for the students.

### **Program:**

A Program is a set of course that are linked together in an academically meaningful way and generally ends with the award of a Degree Certificate depending on the level of knowledge attained and the total duration of study, FMM Programs.

### **Course:**

A 'course' is essentially a constituent of a 'program' and may be conceived of as a composite of several learning topics taken from a certain knowledge domain, at a certain level. All the learning topics included in a course must necessarily have academic coherence, i.e. there must be a common thread linking the various components of a course. A number of linked courses considered together are in practice, a 'program'.

### **Bridge Course:**

Bridge course is visualized as Pre semester preparation by the learner before commencement of the regular lectures. For each semester the unit, whose knowledge is considered as essential for effective and seamless learning in the Semester, will be specified. The Bridge Course can be conducted in online mode. The Online content can be created for the Bridge Course Units.

### **Module and Unit:**

A course which is generally an independent entity having its own separate identity, is also often referred to as a 'Module' in today's parlance, especially when we refer to a 'modular curricular structure'. A module may be studied in conjunction with other learning modules or studied independently. A topic within a course is treated as a Unit. Each course should have exactly 5 Units.

### **Self-Learning:**

**20% of the topics will be marked for Self-Learning.** Topics for Self-Learning are to be learned independently by the student, in a time-bound manner, using online and offline resources including online lectures, videos, library, discussion forums, field work, internships etc.

Evaluative sessions (physical/online), equivalent to the credit allocation of the Self Learning topics, shall be conducted, preferably, every week for each course. Learners are to be evaluated real time during evaluative sessions. The purpose of evaluative sessions is to assess the level of the students' learning achieved in the topics earmarked for Self-Learning.

The teacher's role in these evaluative sessions will be that of a Moderator and Mentor, who will guide and navigate the discussions in the sessions, and offer concluding remarks, with proper reasoning on the aspects which may have been missed by the students, in the course of the Self-Learning process.

The modes to evaluate self-learning can be a combination of the various methods such as written reports, handouts with gaps and MCQs, objective tests, case studies and Peer learning. Groups can be formed to present self-learning topics to peer groups, followed by Question and Answer sessions and open discussion. The marking scheme for Self-Learning will be defined under Examination and Teaching.

The topics stipulated for self-learning can be increased or reduced as per the recommendations of the Board of Studies and Academic Council from time to time. All decisions regarding evaluation need to be taken and communicated to the stakeholders preferably before the commencement of a semester. Some exceptions may be made in exigencies, like the current situation arising from the lockdown, but such ad hoc decisions are to be kept to the minimum possible.

### **Credit Point:**

Credit Point refers to the 'Workload' of a learner and is an index of the number of learning Lectures deemed for a certain segment of learning. These learning Lectures may include a variety of learning activities like reading, reflecting, discussing, attending lectures / counseling sessions, watching especially prepared videos, writing assignments, preparing for examinations, etc. Credits assigned for a single course always pay attention to how many Lectures it would take for a learner to complete a single course successfully. A single course should have, by and large a course may be assigned anywhere between 2 to 8 credit points wherein 1 credit is construed as corresponding to approximately 30 to 40 learning Lectures.

### **Credit Completion and Credit Accumulation:**

Credit completion or Credit acquisition shall be considered to take place after the learner has successfully cleared all the evaluation criteria with respect to a single course. Thus, a learner who successfully completes a 4 CP (Credit Point) course may be considered to have collected or acquired 4 credits. learner level of performance above the minimum prescribed level (viz. grades / marks obtained) has no bearing on the number of credits collected or acquired. A learner keeps on adding more and more credits as he completes successfully more and more courses. Thus, the learner 'accumulates' course wise credits.

### **Credit Bank:**

A Credit Bank in simple terms refers to stored and dynamically updated information regarding the number of Credits obtained by any given learner along with details regarding the course/s for which Credit has been given, the course-level, nature, etc. In addition, all the information regarding the number of Credits transferred to different programs or credit exemptions given may also be stored with the individual's history.

### **Credit Transfer:**

(performance transfer) When a learner successfully completes a program, he/she is allowed to transfer his/her past performance to another academic program having some common courses and Performance transfer is said to have taken place.

**Course Exemption:**

Occasionally, when two academic programs offered by a single university or by more than one university, may have some common or equivalent course-content, the learner who has already completed one of these academic programs is allowed to skip these 'equivalent' courses while registering for the new program. The Learner is 'exempted' from 'relearning' the common or equivalent content area and from re-appearing for the concerned examinations. It is thus taken for granted that the learner has already collected in the past the credits corresponding to the exempted courses.

**Note: The Ordinances and Regulations given below are applicable to Program of Humanities under faculty of Mass Media, unless and otherwise specified.**

**O. 1**

Minimum duration of the FMM programme will be of 3 years in the Semester pattern i.e. from Sem. I to Sem. VI.

The degree will be awarded to a learner who successfully completes 120 credits of the programme in period of 3 to 6 years from the year of enrollment to semester VI.

If a learner does not earn 120 credits in 12 semesters from the year of enrolment to semester I, he/she may at his/her option transfer his/her performance in the existing/new program after establishing equivalence between old and new syllabus. Such a performance transfer will be decided by the Board of Studies / Ad-hoc Board / Ad hoc Committee of the concerned subject. The admission to the program will be governed by the existing rules

**O\*\*\*\*\* The fees for transfer of credits or performance will be based on number of credits that a learner has to complete for award of the degree.**

**R 10002** Credits earned at one institution for one or more courses under a given program will be accepted under another program either by the same institution or another institution either through Direct Performance Transfer or Course exemption.

**R 10003 The Scheme of Teaching and Examination:**

The Scheme of Teaching and Examination shall be divided into THREE components, SELF LEARNING, Internal assessment and External assessment (semester end examination) for each course of the program.

1) **SELF LEARNING** Assessment. Some methodology has been described in Definition of Self Learning. However Subject Teacher is authorized to devise newer methods of evaluation, which must essentially be documented and circulated through mail or written circular to the learners at least 7 days prior to its implementation. 10% of the marks shall be allocated for Self-Learning assessment.

2) **Internal Assessment** includes Assignments, Seminars, Core Practical, Practical, Commutative Test, Practical Record, Unit Tests etc. Subject Teacher is authorized to devise newer methods of evaluation, which must essentially be documented and circulated through mail or written circular to the learners at least 7 days prior to its implementation. For each course, there is a passing minimum for internal Assessment as 40% (12 out of 30 marks).

3) **Semester End Examination** 60% (24 out of 60 will be passing marks) overall 40% (40 out of 100 will be passing marks).

## Section B

### R. 20001 Passing Standard and Performance Grading:

#### PASSING STANDARD:

The learners to pass a course shall have to obtain a minimum of 40% marks in aggregate for each course where the course consists of Internal Assessment & Semester End Examination. The learners shall obtain minimum of 30% marks (i.e. 12 out of 30) in the Internal Assessment and 70% marks in Semester End Examination (i.e. 24 Out of 60) separately, to pass the course and minimum of Grade E in each project, wherever applicable, to pass a particular semester. A learner will be said to have passed the course if the learner passes the Internal Assessment & Semester End Examination together.

#### PERFORMANCE GRADING:

The Performance Grading of the learners shall be on the TEN-point ranking system as under:

Grade	Marks Grade	Points

## Section C

### Bachelor of Arts in Multimedia and Mass Communication

#### Part 1 - Preamble

The Bachelor of Arts in Multimedia and Mass communication program is started with an aim to make the students employable and impart industry-oriented training.

1. **Course Objective:** The main objectives of the course are:
  - To think analytically, creatively and critically in developing robust, extensible and highly maintainable technological solutions to simple and complex problems related to human, technology and environmental factors.
  - To work effectively as a part of a team to achieve a common stated goal.
  - To adhere to the highest standards of ethics, including relevant industry and organizational codes of conduct.
  - To develop an aptitude to engage in continuing educational and professional development.

The syllabus spanning three years covers the industry endorsed relevant courses. The students will be ready for the jobs available in different fields of media.

#### 2. Process adopted for curriculum designing:

The process involved both Academia & Industry professionals & the methods adopted were:

- Brainstorming
- Deliberations
- Personal Interactions
- Studied syllabi of other Universities & colleges in India and custom-made the same to our programs.

#### 3. Salient features, how it has been made more relevant:

The mass media course of Bombay university started in the year 2000. It is now two decades since the course came into force and the media course today needs to be made more relevant to suit the current times. The Media landscape has changed a lot in the last two decades. The programs are relevant in today's academic sphere as:

- Traditional media has changed - in presentation & content
- Internet has become more accessible and has penetrated far and wide making academia accessible.
- Media convergence has grown paving way for collaborations across geographical boundaries
- Increased viewership of Films & TV content across platforms
- Boom of radio and digital audio platforms
- Growth of Transmedia

#### **4. Learning Objectives:**

The syllabi for the two undergraduate programs is for three years:

FYBAMMC and FYBAFTNMP

The learning outcomes involve both understanding the theoretical perspectives and practical applications.

The programs enable students to learn:

- Global awareness of political, social, environmental, and corporate issues.
- To deal with issues- sensitively, cognitively & compassionately.
- The foundation, process, and practices of writing & be proficient in the same indifferent media.
- The foundation, process and nuances of filmmaking across platforms & be proficient in the same.
- To conceptualize, design, and produce content aesthetically.
- To acquire the knowledge, skills, and values that prepare them for future careers.

#### **5. Learning Outcomes:**

- Be future ready for a variety of careers in the media industry including - Print, Broadcast, Films, New Media, Media Research.
- Appreciate the interdisciplinary nature of the programs & on graduation, apply it in their jobs effectively.
- Ensure that they have a global awareness of political, social, and environmental issues to incorporate the same in their field of work.
- To understand the nuances of the economics of the media industry, regulatory constraints, Ethical concern, and the role of Intellectual property Rights in India & around the world.
- To be groomed through various practices to be responsible media professionals.
