STUDENT SATISFACTION SURVEY 2023-24

About the Survey

Students of an institution are the most valuable stakeholders, and all activities are implemented and designed to create an environment conducive to their success, helping them achieve great heights.

The institution provides several facilities to students, such as IT-enabled classrooms, well-equipped laboratories, a well-stocked and comfortable library, a well-formulated and just evaluation system, and an approachable and efficient office.

It is imperative for any institution to understand the effectiveness of its efforts by eliciting the perceptions and opinions of students, which helps identify areas for further improvement.

Survey Process

The survey is conducted and reported by the Internal Quality Assessment Cell (IQAC) with the support of Heads and Coordinators of all departments. Questionnaires are prepared in Google Forms and circulated through the departments to the students.

The feedback questionnaire measures satisfaction with various attributes such as classrooms, resources, syllabus, results and evaluation, extracurricular and co-curricular activities, placements, internships, counseling facilities, college administration, and faculty. The responses obtained on these dimensions are analyzed, and logical conclusions are drawn. All values are interpreted in terms of percentages.

The results of the survey help the institution understand both the short-term and long-term needs of students and initiate remedial actions to improve facilities wherever required. The outcome of the survey provides a base for planning future initiatives.
